

A WEBINAR SERIES

PADDY STRAW BURNING: TRANSFORMING POLLUTION TO POWER

📅 9 JUNE, 2020 | 🕒 2:00 PM - 4:00 PM

EU EXPERTS

Jarosław Zuwała, Krzysztof Głód,
Janusz Lasek

MODERATOR

Marek Zaborowski

02:00 pm - 02:05 pm

Open Remarks

Bhawani Singh Khangarot, IAS
Director, UPNEDA & Special Secretary,
Department of Additional Sources of Energy, Government of UP

02:05 pm - 02:10 pm

Introduction

Marek Zaborowski

02:10 pm - 03:30 pm

Topics of discussion:

Janusz Lasek & Jarosław Zuwała

- Most common co-fired biomass types.
- Paddy Straw - current status of its energy use and research: benefits and challenges.
- Impact of biomass specific parameters on technological bottlenecks of its use in power plants.
- "Simple and forgotten properties" – a crucial role of bulk density and impurities.
- Basics of combustion and co-combustion in power plants.
- Description of specific unit processes of biomass application in power plants.

03:30 pm - 03:50 pm

Panel discussion: Q&A session

Jarosław Zuwała, Krzysztof Głód,
Janusz Lasek

03:50 pm - 04:00 pm

Closing Remarks

Marek Zaborowski
